and Filipinos.

(By Associated Press.) WASHINGTON, D. C., August 15 .- The War Department - made public the Filipino correspondence, captured some months ago by Gen. Funsion's command in Luzon. There is a letter from Montague R. Leverson, dated at Fort Hamilton, New York, July 17th, 1899, and addressed to Senor G. Apacible. It says in part:

"Dear Sir and Brother .- Our friend, Albert S. Parson, of Lodington, gave me your name as one to whom I should write as a representative Filipino. POPULIST WILSON

write as a representative Filipino.

"I am a member of the Anti-Imperalist league of Boston, of which Gen. Boutwell is president, and Ewing Winslow is secretary. I have published many articles and letters denouncing the piratical war carried on by President McKinley against your people. He and Gen. Otts and all his troops are pirates upon the territory of the natives. Our presidents are not in the position of kings. Our presidents are not in the least authorized to make war without the consent of Congress as McKinley is doing, and all persons compromised in the war are pirates.

"I would like to suggest a plan to you. It is this: You should seize some official of rank in the service of the United States and then inform the foreign consuls that he was to be brought before a consul of war for piracy and write to said consuls to have representatives present at such council of war to see that it is legal.

"Please would be shown by conductive

council of war to see that it is legal.

"Piracy would be shown by conducting
a war in violation of the usages of civilized war, and the proof would consist in
the fact of the consent to killing defenseless prisoners and non-combatants, women
and children in cold blood, and in robbery
by officers and soldlers from non-combatants.

"I also suggest that the Filipino Congress address an appeal to the people of the United States.

"I shall not give you the heads of this appeal. I merely point out some things which especially influence the people. For example, a reference to the Declaration of Independence must be inserted, but I believe that it is also necessary for you to mention in your appeal the points I have made above to show that this war is piracy, using them to bring the want of Christian feeling of the soldiers.

Another letter, dated Singapore, June 16, 1893, from W. G. St. Clair, editor of the Singapore Free Press, to Howard W. Brey, discusses conversations which the writer claims to have had with Consul Pratt, who was succeeded about that time by Consul-Moseley, at Singapore. There also was some suggestion that Pratt fa-vored the Filipino cause, and the discussion related to conversations that Consul Pratt is said to have had with the Filipinos. St. Clair throws doubt upon Pratt's talk with the Filipinos, but says Dewey's interview with Aguinaldo is the important matter. St. Clair says: WHAT DEWEY WANTS.

of their amusements—some even That rich Americans are willing to pay any price for that which meets their everincreasing demand for luxury is illustrated by the growth of high-class apartment house building in large cities. A private Buying things is not unpleasant if you find intelligent service and a house fitted up at an expense of \$100,000 is considered luxurious almost anywhere on earth. To expend so much money in fitting up an apartment, a suite of rooms not owned by the tenant, but rented by the year, was unheard of a few years ago; yet And your money returned if the year, was unheard of a few years ago; yet such lavishness is not uncommon in this country now, and there are seerval apartments in the city of New York whose decorations and special furnishings represent an outlay of \$200,000 or even more. Excellent four-story private residences in New York city may be rented for \$7,000 or \$8,000 a year. That many citizens to whom money is no object prefer apartwhom money is no object prefer apart-ments nowadays to owning their own homes or renting private houses is shown by the fact that every apartment in the city which rents at the top price, \$12,000 a year, is occupied, and the waiting lists are long. The owner of a high-priced apartment building said on this point re-

"I have never had any trouble in renting \$12,000 apartments, and if I had six or seven more of that kind they would be taken im-mediately, for all I would have to do would be to send word to a few people on my waiting list who are anxious to abandon their private residences as soon as they can find suitable apartments. When first opened our house we were prepared to throw a series of rooms into a suite, the rental of which would have been \$20,000 a year, but at that time there was no call for it. The greatest demand seems to be for suites of five rooms, with baths, which rent for \$7,500 a year. These prices are for unfurnished rooms."

A New York architect who has built several high-class apartment houses is just completing one which is eight stories high. one apartment to a floor, and the rental of each is \$10,000-unfurnished, of course, There are no fewer than fifty buildings in the country in which rents for apartments

run as high as \$5,000 to \$7,500.

LARGE INCOMES.

It is safe to say that the income of such an apartment dweller must generally be at least \$100,000 a year and in many cases it is more. Basing a conclusion on the present popularity of high-priced apartments, it seems clear that there are a surprising number of men in the United States whose incomes are \$150,000 or more a year. An officer of the New York Chamber of Commerce recently said that 500 would be a very conservative estimate of the number of men in New York alone whose is that of the President of the United

States.

One curious development of the apartment-house idea is joint ownership of buildings by the tenants; great buildings in which the tenants purchase their apartments outright.
